

WSA Crude Steel Production Methods 2020

Steel Demand Model - Forecast Report

WSA Crude Steel Production Methods - 2020

This diagram shows the different production pathways for crude steel based on WSA methodology.

Crude Steel Production Methods - 2020

Production Method	Estimated Volume (kt)	Share (%)
Electric Arc Furnace (EAF)	1647	30%
Basic Oxygen Furnace (BOF)	3843	70%
Total Crude Steel	5490	100%

Note: EAF/BOF split estimated using typical Australian steel industry proportions Based on official WSA Crude Steel Production Methods diagram
