

WSA Crude Steel Production Methods 2025

Steel Demand Model - Forecast Report

WSA Crude Steel Production Methods - 2025

This diagram shows the different production pathways for crude steel based on WSA methodology.

Crude Steel Production Methods - 2025

| Production Method | Estimated Volume (kt) | Share (%) |
|----------------------------|-----------------------|-------------|
| Electric Arc Furnace (EAF) | nan | 30% |
| Basic Oxygen Furnace (BOF) | nan | 70% |
| Total Crude Steel | nan | 100% |

Note: EAF/BOF split estimated using typical Australian steel industry proportions Based on official WSA Crude Steel Production Methods diagram
